

TGI CONNECT

Trailer Connect ID

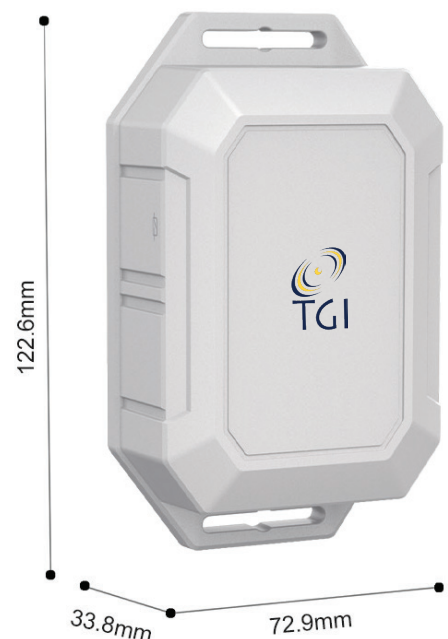

No more costly incorrect pairing!

Trailer Connect ID is a smart device that connects your truck and trailer wirelessly. It ensures accurate pairing, real-time monitoring, and seamless integration. No more wrong trailer hookups.

Just install, activate, and go!

Trailer Connect ID Advantages:

- No more incorrect trailer hooks → Accurate pairing of truck to trailer
- Real time monitoring of hooked/unhooked trailers
- Reporting and notification of trailer hooked/unhooked status
- Wireless installation using low energy bluetooth
- Integration with back office systems
- Easy installation

Eliminate inefficiencies and maximize revenue with a solution designed to pay for itself

Trailer Connect ID

Accurate Pairing

Eliminate the frustration and potential costs associated with incorrect trailer pairing. With its smart technology, TCID ensures precise and reliable matching of your truck and trailer, preventing any compatibility issues.

Timely Notifications

Experience peace of mind with prompt reporting when an event occurs, allowing you to keep track of your trailer's status whether it's hooked or unhooked. This information is readily accessible, providing you with timely updates on the location and condition of your trailer.

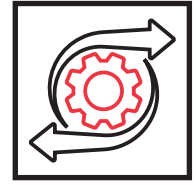

Efficient Reporting and Notifications:

Stay informed at all times with the Trailer Connect ID's reporting and notification system. Receive timely alerts about the status of your trailer, ensuring that you are promptly notified when it is hooked or unhooked. This feature enhances overall efficiency and helps prevent any oversights.

Wireless Installation Using Low Energy Bluetooth:

Enjoy the convenience of a hassle-free setup with the wireless installation capability using low-energy Bluetooth. No need for complex wiring or time-consuming installations; simply activate the device, and you're ready to go. This user-friendly approach saves time and effort.

Seamless Integration with Back Office Systems

Enhance your overall trucking operation by seamlessly integrating the Trailer Connect ID with your back-office systems. This feature streamlines data management, making it easier for you to access and analyze crucial information about your fleet.

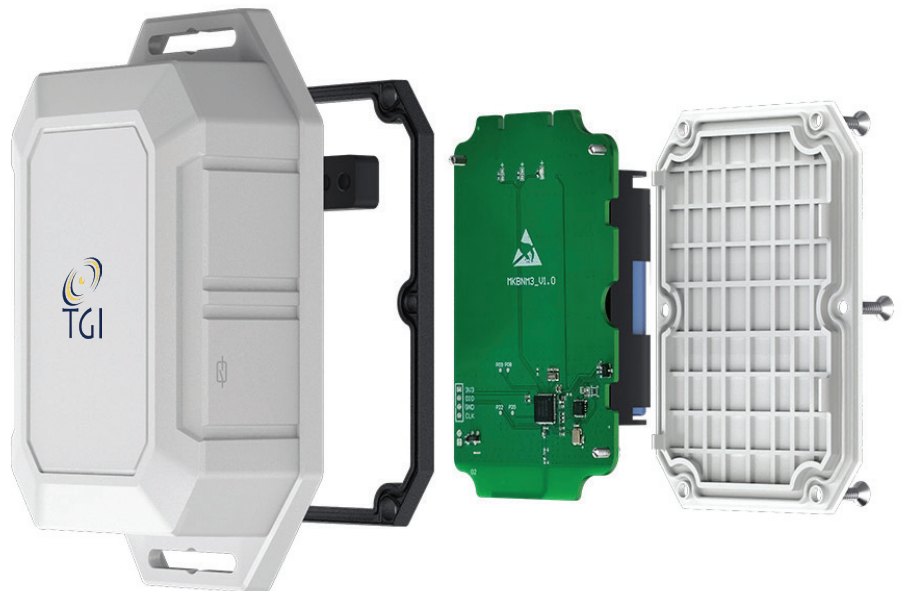

Stop your drivers from towing the wrong trailer!

Specifications:

- IP67 Waterproof
- UV & dust resistant
- Nordic nRF52 series
- 1 year battery life - with replaceable batteries
- Operating temp (-40°C~85°C)
