

# New MCM Plus AI Reports & Dashboards

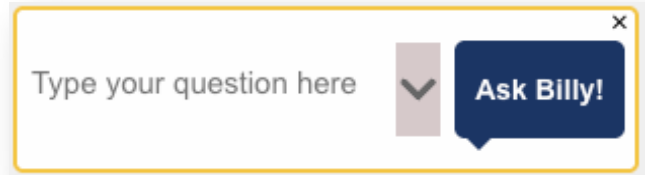

## Optimize Operations and Cut Costs with Business Intelligence

AI analytics powered by accurate trailer data leads to faster decisions and a measurable reduction in trailer fleet spend.

## Ask Billy! Your AI Assistant

Ask Billy anything about your trailers - get the insights you need when you need them

## Executive Dashboards

See what matters most to you.

Each user can create individually customizable dashboards that relate to different roles and functions within your organization.

## Key Insights - AI Analytics

Go beyond data.

Have AI automatically interpret KPIs and highlight key findings. Gain insights on what is happening and why it matters.

# Introducing AI Smart Reports

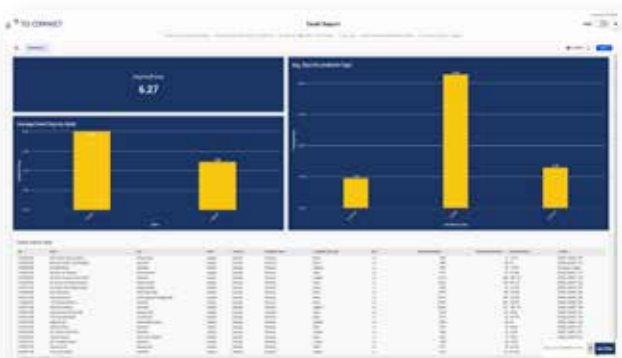

YARD CHECK REPORT

MILEAGE REPORT

DWELL REPORT

SENSOR REPORTS

## Turn Trailer Data into Decisions

Faster data, faster actions.

Take your reports to the next level by using intelligent data analysis flexible enough to provide the data you want in the way that you want it.

## Visualize Your Data

Stop scrolling, start seeing.

Replace static tables with charts and graphs making analysis faster, clearer, and sharable across your team.

## Increase Your Efficiency

Trailer intelligence made simple.

Reduce dwell and detention, improve trailer utilization, lower maintenance spend, and ensure data accuracy with reliable satellite coverage.

## Designed to Save Time

Identify what's important.

Create customized reports and save them to your favorites, eliminating the need to sift through spreadsheets.

## Smart Sensor Data

Added trailer insights for complete data.

With Vizicube Smart Sensors transportation companies get more visibility on the status of their trailers.
